

# FI Review Sessions and Mentoring

## Reviewing the Functional Integration material of FITP Wien 2017 with Sascha

To study and clarify Functional Integration skills is the main focus in the 3rd and 4th year of a Feldenkrais training program. In order to help clarify Functional Integration lessons/configurations Sascha is offering practice sessions and mentoring for the trainees of „Wien 2017“.

In each of these supervised one-day practice sessions we will have one FI configuration as the main topic, the material will be chosen in accordance with Donna. A relaxed atmosphere will help practicing together with ease and give plenty of space for your questions – while reviewing the details of each Functional Integration lesson. Each day will start with a short ATM lesson that closely relates to the FI practice of the day.
